Lee En Qi Andrea was a student of Edgefield Secondary School from 2018 to 2021.

Andrea has a cheerful disposition and is not easily discouraged by setbacks. She constantly perseveres to do her personal best and takes on duties with enthusiasm. As the Class Vice-Chairperson in 2020, she discharged her duties with pride. She consistently demonstrates dedication to the tasks assigned to her and strives to produce excellent results.

Andrea develops positive relationships with her classmates. She is helpful and cooperative and is able to work well with her classmates. She has forged steady friendships with them and has a good support circle in class.

Andrea seizes every opportunity for improvement. She accepts feedback readily and uses it constructively. With her constant diligence, she obtained the Good Progress Award in 2020. Andrea also displays good team spirit and is enthusiastic and dedicated when working with others. She demonstrates strong interpersonal competence and is able to work effectively with her peers. She was awarded the Class Values Award (Moral Courage) in 2020.

Andrea showed keen participation in school activities such as the Soul Arts Festival in 2018, ARTasFest Carnival, Secondary Two Outdoor Adventure Camp in 2019 and the Outward Bound Singapore camp in 2020.

Andrea was a member of Edgefield Girl Guides and participated actively in the activities. She was promoted to the rank of Patrol Leader in 2019. Andrea supported the company in clinching the Gold in Puan Noor Aishah Award in 2019, demonstrating self-discipline and motivation as she encouraged her team members to set high standards for themselves. Her unflagging determination to excel in her Co-Curricular Activity enabled her to participate in the annual World Thinking Day and North Division Day, the Girl Guides Camp at Camp Christine as well as the yearly Cookie Sales. In 2019, she also participated in a Values-in-Action activity with St Andrews Hospital and helped with the creation of flashcards for pediatric patients and crafted positive messages to frontline workers of various hospitals, in collaboration with the Singapore Kindness Movement. Through the activities she participated in, Andrea demonstrated a high level of proactiveness and dedication and was able to accomplish the various tasks entrusted to her.

Andrea took up Taekwondo under the school's Learning for Life Programme. A dedicated Taekwondo practitioner, she sought to make continual improvements in the sport during the weekly training sessions. Her commitment in the sport allowed her to rise through the levels. She took part in the annual grading exercises and eventually attained the Yellow Belt. Participating in the sport aided in her moral development where she learnt respect for herself and others, heightened concentration, and increased self-discipline. The sport has also taught her to make decisions promptly and independently in times of difficulty.

Andrea also successfully completed the Apple Education Programme where she underwent more than twenty hours of Information and Communication Technologies training. Through the course of the programme, she learnt how to use the iOS (developed by Apple Inc), iMovie, G-Suite applications and Web 2.0 tools. She went on to apply the skills learnt to complete a Challenge-Based Learning Project where her group identified a real-world problem and came up with a viable solution that they implemented. Her ability in harnessing technology will help her acquire new knowledge and skills and to connect new information with existing knowledge. This will make her a self-directed learner and an active contributor in the 21st century.

Through the school's Applied Learning Programme - Growing the Entrepreneurial Mindset, Andrea underwent training which helped her develop entrepreneurial, critical thinking and creative problem-solving skills. She was engaged in problem identification, market research, business planning as well as analysis and evaluation of solutions. In our 2019 school carnival, ARTasFEST, Andrea was a member of the steering committee that led the organisation and execution of the event. She was instrumental in realising the key aims of ARTasFEST, through her ability to lead the student population and collaborate effectively with her peers.

Andrea successfully completed the 30-hour Elective Module "Small Office Home Office" with Institute of Technical Education Central College in March 2021. Elective Modules are rigorous one-off enrichment programmes with hands-on and project-based learning approaches focusing on the practical application of knowledge. Andrea applied the knowledge learnt in the module Small Office Home Office to authentic learning contexts and achieved the Certificate of Achievement.

Andrea's unflagging determination to excel in both her academic and non-academic pursuits will enable her to succeed in her future endeavours.
